About 50Wheel

50Wheel is the world's leading website for video strategy and marketing technologies. Browse hundreds of software tools, guides and get strategy advice.

Adventr

Adventr provides marketers with an interactive video platform to design, distribute, and analyze interactive, viewer-driven, video content.

Adways

Adways is an easy-to-use cloud-based platform to create HTML5 interactive videos. The tool gives you the power to add interactive elements to videos and dynamically publish them in a few clicks.

DialogR

DialogR is a video marketing solution complete with a video hosting platform with detailed analytics along with a powerful interactivity toolset to make videos engaging and interactive.

Exaltive

Exaltive is a powerful interactive video platform with tools to make the video actionable and merge personalized or data driven content from a web application into an online video.

H5P

H5P is an open source tool that makes it easy to create, share and reuse HTML5 content and applications. H5P enables marketers to create rich, interactive web experiences efficiently.

HapYak

HapYak is setting the standard for interactive video by empowering people to experience videos on the web more like they do together in person: with remarks, insights, opinions and personality.

Klynt

Klynt is a powerful platform for building and designing interactive video content. Editing & publishing application is tailored to interactive storytellers and learning developers.

Metta

Metta provides a video lesson software that enables teachers & trainers to create interactive video lessons easily and share them with groups of students. The toolset makes it easy to pull pictures, videos, sound and text off the web and create quick videos with embed polls and quizzes for measuring the progress.

Playposit

PlayPosit is an online learning environment to create and share interactive video lessons. Begin with any online video and transform what is traditionally passive content into an active experience for students, with time-embedded activities. PlayPosit is designed for K-corporate, flipped, and blended environments.

Rapt

Rapt Media provides a creative platform for driving interactive enterprise video for companies wanting to achieve measurable business objectives using online video. Rapt Media makes online video an interactive experience, allowing creative professionals to produce content at scale that is highly engaging, converts interaction into action and provides significant ROI.

Smartzr

Smartzr is an interactive video platform for the web and mobile that allows video viewers to make purchases by clicking on interactive items in the videos. Smartzr's video player adds clickable hotspots to videos. Viewers can click rich elements in the video to see more information or a link to purchase an item.

SnapApp

SnapApp is an interactive content creation platform used by companies to easily create interactive content to generate leads and drive revenue across the web, mobile, social and email. Marketers can select from customizable content types that average click rates of over 50% and conversion rates in excess of 80%.

Storygami

Storygami helps YouTubers and brands increase video engagement and monetize content with interactive overlays. The easy to use tool gives users the ability to drag and drop interactive overlays such as articles, image galleries, social media streams, polls and purchase buttons to existing Youtube, Vimeo, Brightcove or Ooyala videos.

Tagazu

Tagazu is an interactive and taggable video platform. The software makes it really easy for marketers to create interactive videos with movable hotspots that contain info about people and objects appearing in the content.

ThingLink

Thinglink is a video engagement tool that makes it easy to add clickable tags to any video on the web and share the tagged videos on social networks.

Tivi

Tivi provides solution for true high quality interactive video making it simple to deliver compelling live, interactive experiences and enhance existing video content with actionable layers.

TouchCast

TouchCast is an integrated video platform for the creation and playback of interactive videos. TouchCast's Authoring Suite is a real-time compositing engine that allows creators to embed interactive elements - web pages, documents, videos, pictures - into the video image content itself.

Uscreen

Uscreen is a simple yet powerful video hosting platform that makes it easy to get video up on a website. Whether you want to distribute and sell videos, podcasts, offer quizzes & certifications, Uscreen protects your content and gives you the tools you need to build a powerful members base of paying customers with integrated billing and payment systems.

Videopath

Videopath provides interactive video solutions that work seamlessly with YouTube, Vimeo, and Wistia. Videopath makes it easy to sync a video, add an interactive layer, customize a player skin and publish to the web.

Vidora

Vidora enables marketers, commerce companies, and media companies to optimize clicks and engagement on their websites and mobile applications via video. The Vidora platform provides powerful machine learning algorithms and a simple WYSIWYG interface which requires no development work to implement.

Vidzor

Vidzor provides a full-service platform to create and distribute interactive videos that engage and convert target audiences across all online channels. Easily create interactive experiences with a self-authoring editor and toolset.

WIREWAX

WIREWAX is an interactive video platform, empowering users to add clickable hotspots, or 'tags', to any moving person or object in video. With up to 9x conversion in-video than onsite, these tags encourage viewers to explore extra content, opportunities to buy or help create immersive experiences.

Wootag

Wootag provides a easy-to-use interactive video authoring and publishing platform. The drag and drop studio makes it simple to execute on rich in-video ideas instantly without any barriers. Wootag videos playback across most social media platforms, including Facebook, websites and smartTVs.

Multipop

Multipop provides an interactive video platform that makes it easy for anyone to add engaging commerce, content extensions and new advertising opportunities to any video in minutes -- driving deeper engagement and monetization opportunities around existing or new digital video content.
